

UV Transilluminators

Available in single and dual wavelength formats, in 21x21cm and 21x26cm sizes, our transilluminators are supplied either as standalone units or with the microDOC™, as part of a fully integrated gel documentation system. With a large surface area, each transilluminator serves as the perfect workstation for viewing and working with fluorescently-stained nucleic acid and protein gels.

Standard features include a high/low intensity safety switch and an efficient starter that allows each of the six 8-Watt UV tubes to energise quickly without flickering, while special filter glass minimises unwanted background light. All of these features maximise contrast and sensitivity, allowing even the faintest fluorescent gels to be viewed. Two dual wavelength models offer added flexibility and convenience.

TECHNICAL SPECIFICATION	
Filter Size	21 x 21 cm or 21 x 26cm
Light Source	8W x 6 tubes
Intensity Switch	High (100%) / Low (70%) intensity switch for single wavelength mode
Fast Start Up	New high quality starter to simultaneously illuminate tubes when switched on with no blink
UV resistant plastic cover	33 x 25 cm (w x d)
Unit dimensions (w x l x h)	34 x 29.5 x 10 cm

FEATURES:

- Three wavelength options: 254/312/365 nm – Two dual wavelength models
- Long life filter
- High efficiency reflector
- Hi/Lo intensity switch
- Fast start up

safeVIEW

Our new safeVIEW LED transilluminator offers the user a safe way to view and document their samples.

This light source also has the added advantage that it does not cause damage to DNA or RNA that would normally be associated with uv light.

They are supplied as a standalone unit and can be used with the microDOC™, as part of a fully integrated gel documentation system. With a large surface area, each transilluminator serves as the perfect workstation for viewing and working with fluorescently-stained protein and nucleic acid gels.

FEATURES:

- No DNA damage to samples.
- Safer for user - No UV light.
- High Purity LED light.
- Strong Metal enclosure with stainless steel filter frame.
- Fast start up.
